## UI DEVELOPER

Front end developer with hands-on experience in designing and implementing responsive UI components by implementing react concepts. Looking forward to acquiring a challenging career with a company to work in tandem with a team where I could improve my knowledge and my capabilities would be put to use for the development of the organization.

## TECHNICAL SKILLS

<b>Languages</b>	: JavaScript, C++, HTML, CSS
<b>Technologies</b>	: React js, React native, Redux, Express, Node.js, React Router, Prime react, Material UI, Bootstrap
<b>Databases</b>	: MongoDB, MySQL
<b>Dev Tools</b>	: Visual Studio Code, Git, Postman, Github desktop, Flipper, Android studio

## EXPERIENCE AND PROJECTS

### ACCENTURE

**Feb 2023 — Present**

#### **Maybank Project**

Front End Development Analyst

Bengaluru, India

- Contributed to the development of the Maybank project in React Native, enabling users to create multiple accounts tailored to their specific needs, each offering distinct advantages.
- Integrated the Zoloz library for ID card scanning, streamlining the account creation process by automatically extracting essential details such as name, date of birth, city and district.
- Leveraged Zoloz results to prefill application forms, reducing user effort and accelerating the application process by 20%.
- Worked with REST APIs to retrieve and display data from databases.

### INFOSYS

**Oct 2020 — Feb 2023**

#### **Supervisor Portal**

Senior System Engineer

Dehradun, India

- Developed the Supervisor Portal website, a React.js project meticulously crafted for efficient management of drivers under the logged-in supervisor.
- Designed and implemented a user-friendly interface displaying comprehensive driver information, including names, contact numbers, earnings, and travel distances.
- Engineered a sophisticated filtering system empowering supervisors to refine data based on various attributes for streamlined decision-making.
- Implemented multilingual functionality with the help of i18n library, enabling the portal to cater to diverse user preferences and languages.

#### **RouteMaster app**

System Engineer

Dehradun, India

- Developed the RouteMaster app, a React Native project aimed at enhancing driver(user) experience by providing access to personalized information(name, total number of badges earned, weather information etc).
- Integrated features for drivers to view their contact list, facilitating communication and collaboration.
- Implemented a badge system allowing drivers to select and complete target badges for monetary rewards.
- Utilized Express.js and Node.js to build robust APIs, enabling seamless communication between the frontend and backend of the application.

## EDUCATION

#### **Graphic Era**

Bachelor of Technology in Computer Science - **8.11** CGPA

Dehradun, Uttarakhand, India

April 2016 — April 2020

#### **D.A.V. Public School**

PCM - CBSE board - **72.3%** CGPA

Dehradun, Uttarakhand, India

April 2015 — April 2016
